EMPLOYEE STAFFING SOLUTIONS THAT WORK FOR YOUR BUSINESS

All America Works offers professional staff leasing services to business and call center operations anywhere in the world. Realizing that there were very limited opportunities for America's physically disabled people to rejoin the workforce, Mike and Kolleen Schrider, founders of the J.Lodge Corporation, developed a business model that ensured these individuals could use their education and experience of 3+ years of college and 5+ years of business in a meaningful and well paid endeavor. This employee model served as the foundation of the J.Lodge Corporation strategy and has provided extraordinary returns to their clients.

Based on the great success that this model achieved in call monitoring and quality assurance programs, the decision was made to offer this unique employee base to the customer care industry.
